Why Choose a
Poly Vinyl Creation?

Made in America

- * Every purchase from Poly Vinyl Creations supports local communities, as we are committed to sourcing and producing all our key components within the United States.
- * At Poly Vinyl Creations, we empower American workers, ensuring that every product is not just made in America but is a testament to American skill and dedication.
- * Our innovation begins at home, in America, where we combine years of expertise with cutting-edge technology to create superior outdoor products.

ASTM (American Society for Testing and Materials) Voting Member

- * Our materials meet and surpass the stringent requirements of ASTM F964, highlighting our commitment to superior quality in PVC exterior profiles. (F964 Specification for Rigid Poly (Vinyl Chloride) (PVC) Exterior Profiles Used for Fencing and Railing)
- * As a voting member of ASTM, Poly Vinyl Creations actively shapes industry standards, ensuring our products are at the forefront of quality and innovation.
- * We're not just manufacturers; we're educators in the field, guiding our industry with expertise in ASTM F1999 practices for PVC fence systems. (F1999 Practice for Installation of Rigid Poly(Vinyl Chloride) (PVC) Fence Systems)

Trade-Only Manufacturer and Distributor

- * At Poly Vinyl Creations, we believe in specialization; just as you wouldn't trust a plumber to do your roofing, we ensure that our fence, deck, railing, and garden products are handled by experts in their respective trades.
- * As a trade-only manufacturer and distributor, we uphold the integrity of the construction trade, ensuring that every product from Poly Vinyl Creations is a testament to professional quality.
- * Our vast network of skilled contractors and suppliers ensures that whether you're a DIY enthusiast, homeowner, contractor, or builder, you receive both top-notch materials and expert installation support.
- * By working exclusively with trade professionals, we contribute to the growth and development of the industry, ensuring high standards and expert craftsmanship.

Wind Zone Fence—Withstanding the Test of Nature

- * At Poly Vinyl Creations, our wind zone fences are engineered to withstand the test of nature, combining advanced product design with robust installation techniques for unmatched durability.
- * We believe in transparency, especially when it has cost implications. Discussing wind zone requirements upfront ensures that you make informed decisions about your project, ensuring that clients understand how product choices and installation methods can impact overall costs and performance in wind zone applications.

Installation Techniques

- * At Poly Vinyl Creations, we understand that the true value of a product is realized in its installation. That's why our designs are crafted with end-use and ease of installation in mind.
- * As a multi-generational company, we've learned that the best products are those that consider the installer's needs, a philosophy that's deeply embedded in our designs.
- * We believe that the journey of quality extends beyond manufacturing. That's why we invest in educating our trade network, DIY enthusiasts and end users on the best installation practices.

Our Suggestions for Taking Care of Your Fence

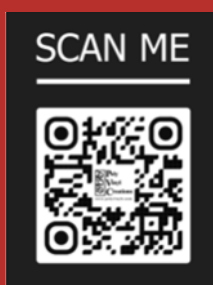

TO CLEAN YOUR VINYL PRODUCT, PLEASE REFER TO A LIST OF POSSIBLE CLEANING SOLUTIONS BELOW:

TYPE OF STAIN	CLEANING AGENT	PREPARATION	SPECIAL CLEANING PROCEDURES
MOLD & MILDEW	NORMAL CLEANING: Use 1 cup of Simple Green combined with 1 gallon of water.	Mix the appropriate solution for your cleaning needs. (For HEAVY Cleaning use equal parts of both). For stubborn stains, use a pressure washer.	Apply with a soft cloth. Use only a little pressure for "normal cleaning". You may have to use more pressure for "heavy" stains.
ASPHALT, TARs, CRAYON, OILS, GREASES, WAX AND MISC.	SOLVENT: Mineral Spirits, VMP, or Napthea Auto Tar Remover or similar products.	Use a plastic wood scrape to remove excess.	Apply mineral spirits with a soft cloth. Use a little pressure to polish stained areas. Rinse with water after stain is removed.
GUM, LIPSTICK, MARKING INKS, NAIL POLISH, AND MISC.	Trichloroethylene Cleaning Fluid or Similar Product	Use a plastic or wood scraper to remove excess. The gum needs to be chilled for removal.	Apply trichloroethylene cleaning fluid with a soft cloth. Use a little pressure to polish stained areas. Rinse with water after stain is removed.
STUBBORN STAINS	Xylene-laquer Thinner or Similar Product	Use this method ONLY if the above methods have failed.	Moisten a small section with the thinner and rub vigorously.
RUST	CLR, Vinegar, Rust-Aid or Similar Product	None. For stubborn stains, use a pressure washer.	Apply with a soft cloth. Use only a little pressure for "normal cleaning". You may have to use slightly more pressure for "heavy" stains.

Pressure washing and light maintenance of your quality vinyl fence is a normal procedure to properly maintain your fence and to protect it from normal use for longevity.

DISCLAIMER: These procedures are not guaranteed to remove stains as other factors might apply including how long the stain has existed. The longer the stain, the more difficult it is to remove. If unsure of proper procedures, please follow manufacturers' instructions.
